

Excerpts from Republic of Korea statement to ECOSOC, 27 July 2011

KANG YONG-KOO (Republic of Korea) The Republic of Korea welcomed the resolution regarding the establishment of the Committee of Experts on Geospatial Information Management. The appropriate use of this information could contribute to a number of agendas, including humanitarian, environmental and development. The Republic of Korea hoped to participate in the consensus with other countries in adopting the resolution. The Republic of Korea expressed its gratitude to Peru for facilitating the development of the resolution and to all Member States that had participated in the negotiations for their flexibility.
