## Look out for the Side Events Schedule, 18-19, April 2016

The Fourth High Level Forum on UN Global Geospatial Information Management is being convened by the UN-GGIM Secretariat, in collaboration with the Government of Ethiopia and the United Nations Economic Commission for Africa. The Forum is substantively supported by the Regional Committees of UN-GGIM, including for: Africa (UN-GGIM: Africa); Asia and the Pacific (UN-GGIM-AP); the Americas (UN-GGIM: Americas); Europe (UN-GGIM: Europe); and the Arab States (UN-GGIM: Arab States) with the involvement of the geospatial industry for a robust technical program.

Wednesday, 20 April	Thursday, 21 April	Friday, 22 April
<b>Opening Ceremony and Ministerial Segment</b>	<b>Session 2:</b> Good land governance and regulatory frameworks	<b>Session 4:</b> Technology and capacity development
<b>Session 1:</b> Land information for sustainable development	<b>Session 3:</b> Geospatial land information management	<b>Session 5:</b> Shared objectives and partnerships

The forum aims to raise political awareness and highlight the importance to decision makers of the need for timely and fit for purpose land administration and management; facilitate coordination and dialogue among global experts from the land administration and geospatial communities to strengthen the use of geospatial information for good land governance; and collaborate with professional bodies and experts working in land governance, including United Nations bodies and other international organizations, to identify and address common issues of land management and governance in support of sustainable development.
