Engaging Custodian Agencies

A National Perspective

IAEG-SDG WGGI New York Dec 2017

The Swedish Baseline

Statistics Sweden got the task from the government to develop the baseline for the first voluntary national reporting 2017 at the High Level Political Forum this summer.

Preparing for the National Reporting

🟢 Possible to report or already being reported

🟠 Possible to develop: data integration needed or changes to current surveys

🔴 Very difficult to report, no current survey, no available method

⚪ Not relevant for Sweden / Global data enough

Assessed the global indicators, added national indicators for targets of national policy relevance

# More than 30 agencies responsible for indicators!
