TECHNOLOGY

PROCESSES

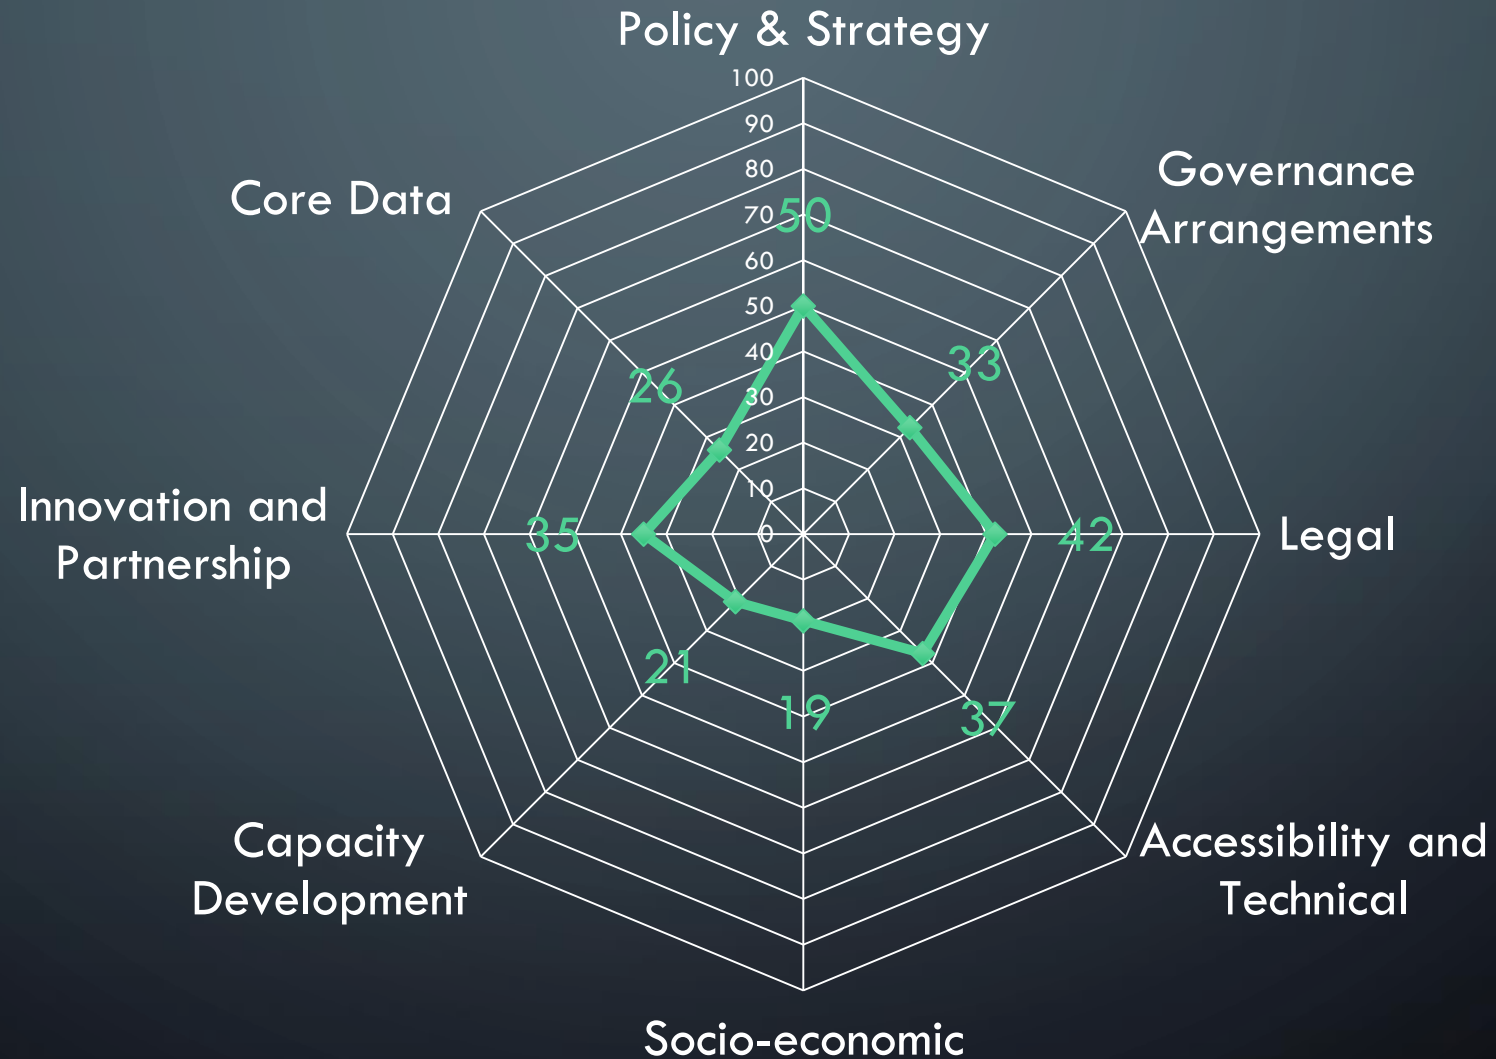

SUCCESS

# WHAT HAVE WE DONE SO FAR?

- Sustainable Land Development and Management (SLDM Project)
- National Geospatial Policy (at Cabinet for approval)
- EU-FLEGT (European Union Forest Law Enforcement, Governance and Trade)
- National Spatial Data Infrastructure (NSDI)
- Geodetic Reference Frame (CORS)
- The integrated geospatial information framework – **Implementation**
- National Data Management Authority (NDMA)

# NSDI DIAGNOSTIC SUMMARY, JANUARY 2019

# TOWARDS IGIF IMPLEMENTATION: NATIONAL GEOSPATIAL POLICY

- 5<sup>th</sup> iteration of National GIS Policy was reviewed using the IGIF Overarching Strategic Framework.
  - Revised and sent to Government of Guyana Cabinet in January 2019, where it is pending approval.

# CHALLENGES

- Lack of Human Capacity (Remote sensing, CORS, Geodatabase, Geoportal etc.)
- Implementation of Standards
- Age of Base Data
- Ability to Generate Data

谢谢  
THANK YOU
