

Committee of Experts on Global Geospatial Information Management

Tenth session

New York, 26- 27 August 2020 and 4 September 2020

Item 13 of the agenda

Implementation and adoption of standards for the global geospatial information community (for information)

<i>Statement provided by:</i> Sweden	
<i>Statement:</i> <i>Sweden notes and welcomes the report presented to the Committee, and acknowledges the good work done by the Technical Committee 211 of the International Organization for Standardization, the Open Geospatial Consortium and the International Hydrographic Organization, in supporting the Sustainable Development Goals.</i> <i>Sweden takes an active part in standardization by hosting the secretariat and chair of the ISO/TC 211. We would like to encourage other Member States to participate in the work of the Standards organizations.</i> <i>Furthermore, Sweden appreciates the progress of the work on the standard for Land Administration Domain Model, the ISO Geodetic registry and the S-100 framework to support the creation and maintenance of interoperable maritime data product specifications.</i> <i>Sweden appreciates the efforts done within the standards development organizations to support the fight against COVID-19.</i>
