

Committee of Experts on Global Geospatial Information Management

Tenth session

New York, 26- 27 August 2020 and 4 September 2020

Item 6 of the agenda

Global geodetic reference frame (for discussion and decision)

<i>Statement provided by:</i> Ecuador	
<i>Statement:</i> Ecuador congratulates and supports the inclusion of the working group in the geodetic reference frame due to its great global importance. Currently, the Military Geographic Institute, official institution of the national reference framework, is working in support of SIRGAS to keep all its continuous monitoring stations active that is why it declared the products generated by the GNSS NETWORK OF CONTINUOUS MONITORING OF ECUADOR (REGME) as free access spatial information. To download GNSS data in native format and RINEX, the community is invited to access the following electronic address: http://www.geoportali gm. gob. ec/portal_ geodesia/ In addition, the methodology for the development of a Geoidal Gravimetric Model in Ecuador is available, worked in conjunction with Working Group III of SIRGAS, who are part of the UNGGIM expert committee.
