

# Committee of Experts on Global Geospatial Information Management

## Tenth session

New York, 26- 27 August 2020 and 4 September 2020

Item 6 of the agenda

### Global geodetic reference frame (for discussion and decision)

<i>Statement provided by:</i> Brazil	
<i>Statement:</i>  IBGE as responsible agency for the geodetic infrastructures and services in Brazil gives full support to the establishment of a Global Geodetic Centre of Excellence (GGCE) as well as for Germany offer to establish a GGCE at the United Nations Campus in Bonn.  The Position Paper on Sustaining the Global Geodetic Reference Frame (draft version) provide a complete scenario for the implementation of GGRF, especially pointing the importance to enhance the global collaboration and cooperation in providing technical assistance for the capacity building in geodesy for developing countries.  IBGE also supports the creation of the fourth working group in the Regional Committee UN-GGIM: Americas dedicated to geodesy, which will strengthen the cooperation between countries in the region and also with the Subcommittee on Geodesy.
