

Committee of Experts on Global Geospatial Information Management

Tenth session

New York, 26- 27 August 2020 and 4 September 2020

Item 7 of the agenda

Geospatial information for sustainable development (for information)

<i>Statement provided by:</i> Ecuador	
<i>Statement:</i> The delegation of Ecuador takes note of the report presented, congratulates and joins the efforts made by the Working Group for the integration of statistical and spatial information promoted by the MEGA project of UNGGIM of America. This type of initiative allows collaborative work between institutions, in the case of Ecuador the joint work is between the Military Geographical Institute (IGM), the National Institute of Statistics and Censuses (INEC) and the National Secretary for Planning Ecuador. This team is working on the calculation of indicators 11.7.1 and 11.3.1, SDGs, the strength of this methodology is the level of spatial disaggregation, information that will be present through the institutional geoportal as a data service.
