

Committee of Experts on Global Geospatial Information Management

Tenth session

New York, 26- 27 August 2020 and 4 September 2020

Item 8 of the agenda

Integration of geospatial, statistical and other related information (for information)

<i>Statement provided by:</i> Colombia	
<i>Statement:</i> Colombia highlights the work carried out by the group of experts, and strongly believe it important to support the operationalization and implementation of the Global Statistical and Geospatial Information Framework (GSGF), to strengthen the integration of statistical and geospatial information to articulate with the development of the 2030 Agenda. We are looking forward to contributing to the development of the guidelines on the Framework and support its promotion, dissemination, and implementation, which will allow improving its understanding and adoption. From the regional level, Colombia will continue working intensely in the coordination of the Working Group on the integration of statistical and geospatial information (IIEG) of UN-GGIM: Americas and will implement the decisions to promote that the MEGA includes the agreements defined, for the alignment and standardization of the processes.
