

Committee of Experts on Global Geospatial Information Management

Tenth session

New York, 26- 27 August 2020 and 4 September 2020

Item 9 of the agenda

Application of geospatial information related to land administration and management (for discussion and decision)

Statement provided by:

Fiji

Statement:

Fiji acknowledges the work carried out by the Expert Group on Land Administration and Management in its efforts to align with Integrated Geospatial Information Framework to support effective land administration for better access to and security of land and property rights at the country level.

Fiji supports the adoption of the Framework for Effective Land Administration (FELA) as it provides guidance for responsible and effective land administration to support the Sustainable Development Goals and national activities for social and economic development and environmental protection.
