

Committee of Experts on Global Geospatial Information Management

Tenth session

New York, 26- 27 August 2020 and 4 September 2020

Item 5 of the agenda

Integrated Geospatial Information Framework (for discussion and decision)

<i>Statement provided by:</i> Philippines	
<i>Statement:</i> <i>The Philippines appreciates the invaluable effort put in by the Member States and the UN-GGIM Bureau/ Secretariat in coming up with a very comprehensive and detailed document on geospatial information management. We find the IGIF Implementation Guide important for the Philippines, which has initiated the implementation of the Philippine Geospatial Data Infrastructure, as a reference to revisit and expand its NSDI plan.</i> <i>The Philippines supports the establishment of a dedicated high-level group of experts on integrated geospatial information management to sustain and ensure the progress of the IGIF.</i> <i>The Philippines moves for the adoption of the IGIF Implementation Guide while subject for periodic review and updating based on the practical experiences of Member States in developing Country-level Action Plans and in implementing and operationalizing the IGIF.</i>
