

National SDG Data Hubs: Statistical integration and geographic disaggregation (Philippines)

5th High Level Forum on United Nations

Global Geospatial Information Management Implementing the Sustainable Development Goals: The Role of Geospatial Technology and Innovation Mexico City, Mexico November 28 – 30, 2017

Outline of Presentation

- I. Status of Philippine Data Hub Project
- II. Updating SDG data and Data Hub
- III. Open Data Initiatives
- IV. Linking SDG and Data Hub to National Outcome
- V. Country work on integrating statistical and geospatial information
- VI. Data Hub (available data)

Updating SDG data and the Data hub

- Republic Act No. 10625
- Poverty and Human Development Statistics Division

Team Leader

Chief Statistical Specialist Poverty and Human Development Statistics Division (PHDSD)

The assessment made on the availability of the SDG indicators in the Philippines showed that out of 244 indicators, 103 indicators are classified as Tier 1 indicators, 59 are Tier 2 indicators, 71 are Tier 3 indicators and 11 indicators are not applicable to the country.

Philippines' Sustainable Development Goals Status

A story map 🛛 🖌 🎾 🖉

ndiri -

Goal 1

Goal 8

At the national level the poverty situation among population has improved a bit compared to the 2006 poverty incidence and at the regional level (zoom-in to see regional level), almost all areas have the same trend (click an area to see the trend) as the national level except for Autonomous Region in Muslim Mindanao (ARMM) where the incidence has gone up. But at the provincial level (zoom-in) the poverty status is not that encouraging because the poverty situation has deteriorated in more than 20 provinces. Worse, there are 6 provinces where poverty incidence has doubled compared to 2006 estimate. On the positive note, There are provinces whose goal of halving the poverty incidence can be considered as achievable and ten (10) have already achieved the target.

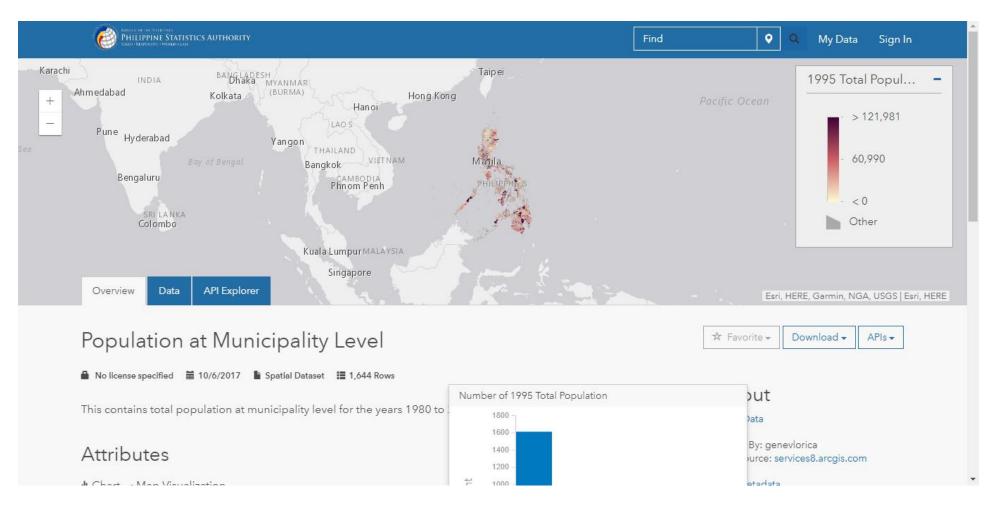

SDG 1.1.2 Status (2015 Poverty Incidence in the Provinces)

2015 Poverty Incidence (Pop.) divided by 2006 Poverty Incidence (Pop.)

- Worsened (> 150% of Baseline)
- Worsened (> 100% <= 150% of Baseline)
- Improved/No Change (> 75% <= 100% of Baseline)
- Improved (> 50% <= 75% of Baseline)
- Achieved (> 25% <= 50% of Baseline)
- Achieved (<= 25% of Baseline)
