n: Status, progress and results

IM: Europe activity on institutional cooperation on tion of statistical and geospatial information for SD

UNITED NATIONS INITIATIVE ON GLOBAL GEOSPATIAL INFORMATION MANAGEMENT

Franka Ginter Pier-Giorgio Zaccheddu Olav Eggers

5-8 December2018, Nairobi IAEG SDG WG GI

UN-GGIM: Europe – Work Plan 2017 - 2020

Task 1 (Subgroup 1): Policy Outreach Paper

Promote the benefits of the integration of statistical and geospatial data
 Make use of recommendations from deliverables on priority user needs, interoperability frameworks, cooperation and methods for data integration and side effects

Task 2 (Subgroup 2):

Analyse new global, regional or national indicators

- ✓ Meet the Sustainable Development Goals 2030
- Reflect the European perspective (INSPIRE, Copernicus)
- Reflect data integration aspects

Task 2 – Analyse global, regional or national indicators

Gap Analysis of SDGs – "Swedish classification model"

	11.2.1 Proportion of population that has convenient access to public transport	11.3.1 Ratio of land consumption to population growth rate	11.7.1 Average share of built-up area of cities that is open space for public use for all	15.1.1 Forest area as a proportion of land area
Global	ORANGE	ORANGE	RED	GREEN
Denmark	RED	GREEN	RED	GREEN
Finland	ORANGE	GREEN	RED	GREEN
France	RED	ORANGE	RED	GREEN
Germany	ORANGE	GREEN	RED	GREEN
Ireland	GREEN	GREEN	ORANGE	GREEN
Italy	ORANGE	ORANGE	RED	GREEN
Portugal	ORANGE	ORANGE	RED	GREEN
Sweden	GREEN*	GREEN	ORANGE / GREEN**	GREEN
Switzerland	GREEN / GREY***	ORANGE	GREEN	GREEN

- Green- possible to report or already being reported
- Orange possible to develop: data integration needed or change in surveys
- Red very difficult to report, no current survey, no available method
- Grey not relevant for country / global data enough

UN-GGIM: Europe – Work Plan 2017 - 2020

Task 1 (Subgroup 1): Policy Outreach Paper (and leaflet)

Promote the benefits of the integration of statistical and geospatial data
 Make use of recommendations from deliverables on priority user needs, interoperability frameworks, cooperation and methods for data integration and side effects

Task 2 (Subgroup 2):

Analyse new global, regional or national indicators

- Meet the Sustainable Development Goals 2030
- Reflect the European perspective (INSPIRE, Copernicus)
- Reflect data integration aspects

Task 1: Policy Outreach Paper

Develop a outreach document

- to guide and recommend on how to improve data integration
 to address the challenges and obstacles for integration of data
- ✓ to provide facts for evidence based policy making
- ✓ to achieve the UN Sustainable Development Goals

\rightarrow Main audience:

Senior manager in NSIs, NMCA and ministries

To gain an overview of the current situation and the main issues related to data integration in the Member States

INFORMATION MANAGEMEN

WG designed a questionnaire

A policy paper on the integration of statistical and geospatial information

Work plan for UN-GGIM: Europe Work Group on Data Integration – Sub-group policy outreach

UN-GGIM: Europe | Work Group on Data Integration | subgroup 1

Version 0.3 2017-09-12

Task 1: "Leaflet" supporting the Policy Outreach Paper

Develop a leaflet

- to present examples for effective data integration (several examples from NL, SE, FR, IT, UK & DE)
- to strengthen the information from the policy outreach paper

\rightarrow Main audience:

Policy makers who are not "geospatially related"

Data integration Supporting your daily life In the modern fast moving world getting and exchanging information becomes more and more important. Where do you get your information from? How good are you connected? With growing demands the need to join together different types of information increases, to make life easier and decisions better.

What is data integration? combining information from differe sources"

Questionnaire layout

The questionnaire was developed to:

- ✓ provide information for the policy paper
- ✓ identify and understand the important issues concerning data integration
- ✓ propose measures to improve the situation
- make the NSI's and NMCA's aware/conscious on the national status for cooperation, and potential improvements

	QUESTIONNAIRE SUPPORTING THE POLICY PAPER
	of the UN-GGIM: Europe Working Group on Data Integration
Please	fill in all the questions. If it is not relevant for your institution, please click "Not applicable".
1	GOVERNANCE AND POLICY
1.1	Are statistics and geospatial information under the same ministry?
	1.1.1 How often do you have consultations with your ministry on data integration issues at the highest level?
	Once a month 🗋 Every 2 - 3 month 📄 Every 6 month 📄 Once a year 📄 Less than once a year 📄 According to demand 📄 Not applicable
1.2	Do you have an agreement on cooperation between the NSI and NMCA in your country?
	Legislation Memorandum of Understanding other
	Legislation Memorandum of Understanding other
	1.2.1 What is included in the agreement? What are the important topics?
	1.2.2 How is knowledge exchange organized between the two agencies?
	E-Mail Telephone Face-to-Face Meetings Web conferences other
	1.2.3 How often do you exchange ideas with colleagues from the NSI/NMCA on data integration topics?
	Once a week Every 2 - 3 weeks Once a month Every 2 - 3 months Less than 3 month According to demand
-0	IGIM: EUKOPE
D NA	ITIONS INITIATIVE ON

Addressees: 180 UN-GGIM: Europe and UNECE contacts in 55 countries

Deadline: 31 August 2018

Questionnaire - headlines

53 Questions on

- **1. GOVERNANCE AND POLICY**
- 2. DATA SOURCES AND STANDARDS
- 3. 2030 AGENDA SUSTAINABLE DEVELOPMENT GOALS
- 4. METHODS AND TECHNOLOGY
- 5. USER ENGAGEMENT

OPE

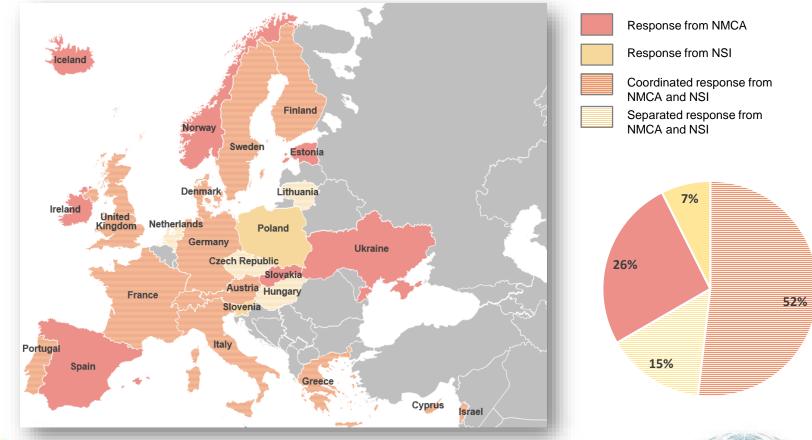

ATION MANAGEMEN

Questionnaire - replies

✓ 33 questionnaires from 25 Countries

UNITED NATIONS INITIATIVE ON GLOBAL GEOSPATIAL

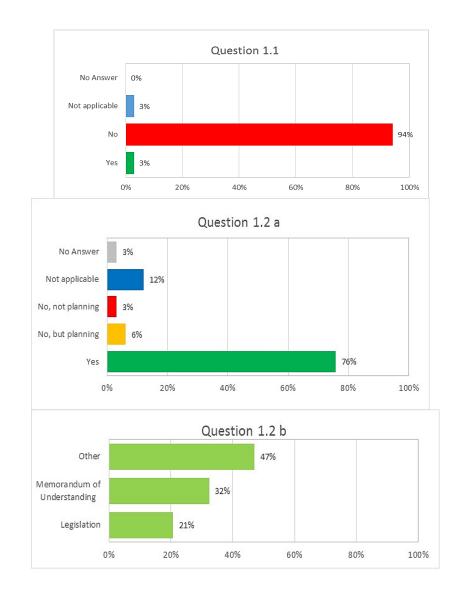

INFORMATION MANAGEMENT

Governance and Policy

1.1 Are statistics and geospatial information under the same ministry?

1.2 Do you have an agreement on cooperation between the NSI and NMCA in your country?

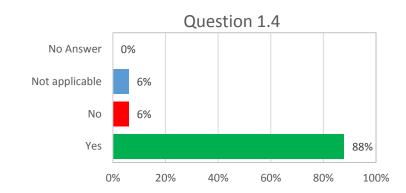

Which one?

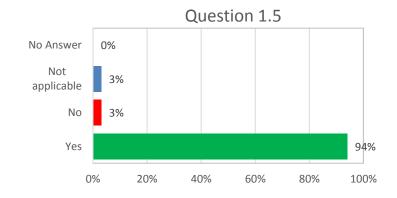

Governance and Policy

1.4 Do you think data integration is making your cooperation more effective and efficient?

1.5 Do you think your data quality will improve using data integration?

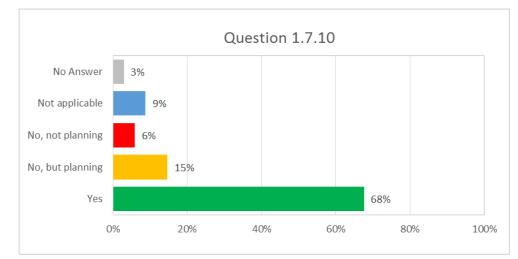

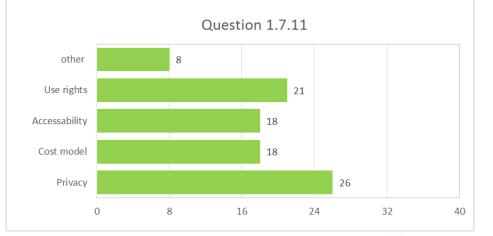

Governance and Policy

1.7.10 Do you have an open data policy for geospatial data?

1.7.11 Do you have any data sharing issues?

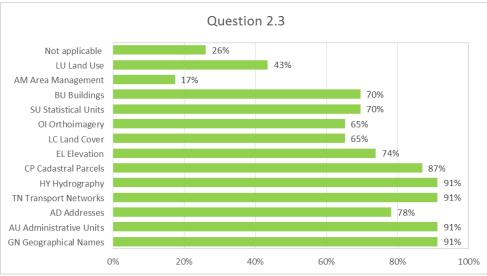

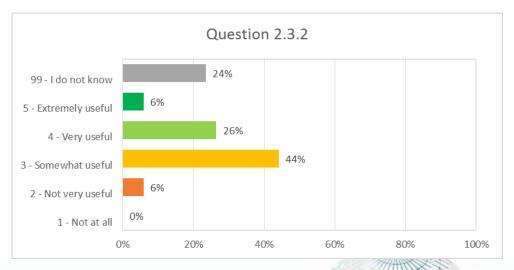

Data sources and standards

2.3 Which themes have been made available according to the INSPIRE regulation in your country?

2.3.2 Do you think the Core data recommendations are useful?

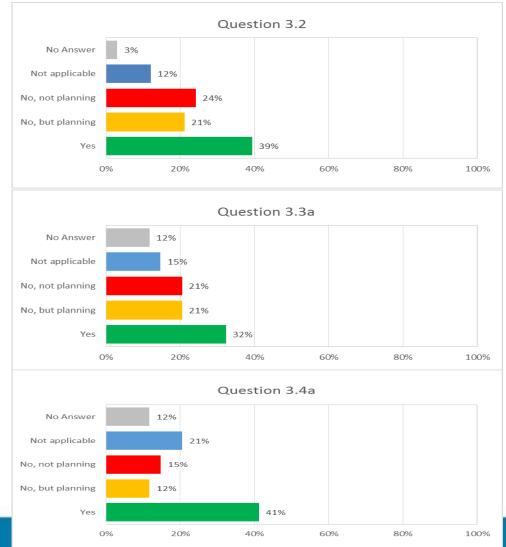

2030 agenda – SDG NMCA participation

 3.2 Is your organization involved in the coordination of the national SDG monitoring?

- 3.3a Is your organization involved in the calculation of SDG indicators under a geospatial lens (IAEG SDG WGGI list)?
- 3.4a Is your organization providing data for indicators (IAEG SDG WGGI list)?

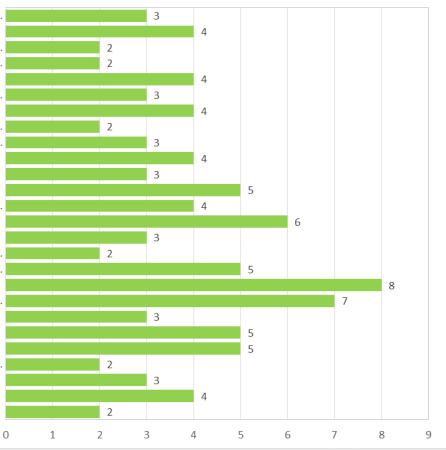

2030 agenda – SDG NMCA participation - calculation

Question 3.3b

11.7.2 Proportion of persons victim of physical or sexual harassment, by sex, age, disability... 15.4.2 Mountatin Green Cover Index 5.a.2 Proportion of countries where the legal framework (including customary law)... 5.a.1 (a) Proportion of total agricultural population with ownership or secure right over... 5.4.1 Proportion of time spent on unpaid domestic and care work, by sex, age and location 5.2.2. Proportion of women and girls aged 15 yeats and older subjected to sexual violence,... 4.5.1 Parity indices (female/male, urban/rural etc. as data become available) 1.4.2 Proportion of total adult population with secure tenure rights to land, by sex and by... 1.1.1 Proportion of population below the international poverty line, by sex, age,... 15.1.1 Forest area as a proportion of total land area 15.4.1 Coverage by protected areas of important sites for mountain biodiversity 15.3.1 Proportion of land that is degraded over total land area 15.1.2 Proportion of important sites for terrestrial and freshwater biodiversity that are... 15.1.1 Forest area as a proportion of total land area 14.5.1 Coverage of protected areas in relation to marine areas 14.2.1 Proportion of national Exclusive Economic Zones managed using ecosystem-based... 11.7.1 Average shar of the built-up area of cities that is open space for public use for all, by... 11.3.1 Ratio of land consumption rate to population growth rate 11.2.1 Proportin of population that has access to public transport, by age, sex, persons... 9.c.1 Proportion of population covered by a mobile network, by technology 9.1.1. Proportion of the rural population who live within 2 km of an all-season road 6.6.1 Change in the extent of water-related ecosystems over time 6.5.2 Proportion of transboundary basin area with an operational arrangement for water... 6.3.2 Proportion of bodies of water with good ambient water quality 6.3.1 Proportion of wastewater safely treated 2.4.1 Proportion of agricultural area under productive and sustainable agriculture

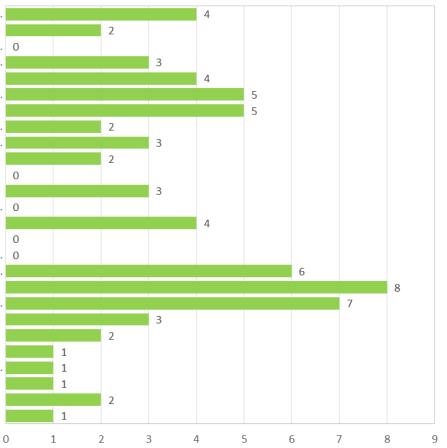

2030 agenda – SDG NMCA participation - data

Question 3.4b

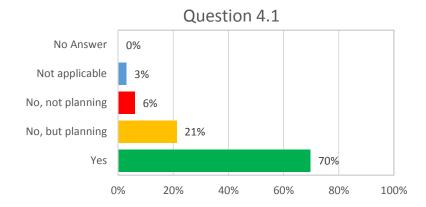

11.7.2 Proportion of persons victim of physical or sexual harassment, by sex, age, disability... 15.4.2 Mountatin Green Cover Index 5.a.2 Proportion of countries where the legal framework (including customary law)... 0 5.a.1 (a) Proportion of total agricultural population with ownership or secure right over... 5.4.1 Proportion of time spent on unpaid domestic and care work, by sex, age and location 5.2.2. Proportion of women and girls aged 15 yeats and older subjected to sexual violence,... 4.5.1 Parity indices (female/male, urban/rural etc. as data become available) 1.4.2 Proportion of total adult population with secure tenure rights to land, by sex and by... 1.1.1 Proportion of population below the international poverty line, by sex, age,... 15.1.1 Forest area as a proportion of total land area 15.4.1 Coverage by protected areas of important sites for mountain biodiversity 15.3.1 Proportion of land that is degraded over total land area 15.1.2 Proportion of important sites for terrestrial and freshwater biodiversity that are... 0 15.1.1 Forest area as a proportion of total land area 14.5.1 Coverage of protected areas in relation to marine areas 14.2.1 Proportion of national Exclusive Economic Zones managed using ecosystem-based... 0 11.7.1 Average shar of the built-up area of cities that is open space for public use for all, by... 11.3.1 Ratio of land consumption rate to population growth rate 11.2.1 Proportin of population that has access to public transport, by age, sex, persons... 9.c.1 Proportion of population covered by a mobile network, by technology 9.1.1. Proportion of the rural population who live within 2 km of an all-season road 6.6.1 Change in the extent of water-related ecosystems over time 6.5.2 Proportion of transboundary basin area with an operational arrangement for water... 6.3.2 Proportion of bodies of water with good ambient water quality 6.3.1 Proportion of wastewater safely treated 2.4.1 Proportion of agricultural area under productive and sustainable agriculture

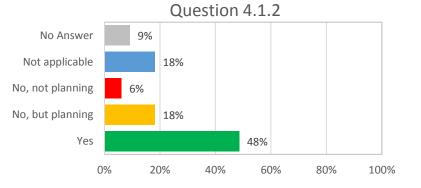

Methods and Technology

4.1 Do you have an agreed method for geocoding?

4.1.2 Is this documentation publicly available?

JROPE

Interim observation from questionnaire

- Very positive feedback on the importance and benefits of data integration between NMCA's and NSI's
- NMCA's and NSI's are generally not in the same ministry, but there are agreements in between in them 76% of the countries responding
- Although 53 % have a national Geospatial Information Management Policy, only 29% of them also covering aspects such as data integration with statistics.
- A good amount of 68% have an open data policy and another 15% are planning to have one in the future. But still, there are issues related to data sharing.
- A limited number of the responding NMCA's are actually participating in the calculation/with data for the geospatial indicators

Pointing at areas to improve, as well as underpinning the potential value of a policy paper

ATION MANAGEMENT

UN-GGIM: Europe Working Group on Data Integration

- Next steps task 1
- **Policy Outreach Paper**
- Finish report on the results of the questionnaire (draft report in review!)
- O Consolidate the leaflet supporting the paper
- O Consolidate the Policy Outreach Paper

Thank you!
