

**DEQING INTERNATIONAL WORKSHOP AND SEMINAR  
ON UNITED NATIONS GLOBAL GEOSPATIAL INFORMATION MANAGEMENT  
"The Data Ecosystem for Sustainable Development"**

Deqing, Zhejiang Province, China  
20 October 2019

***Technical briefing and visit on the Deqing SDGs Profile***

**Background**

This component of the Deqing International Workshop and Seminar will inform participants of the development and progress of the Deqing SDGs Profile including the Deqing SDGs Data Hub. The technical briefing will allow participants to understand first-hand the efforts and progress in the application of geospatial information and its integration with statistical and other data for sustainable development in Deqing, in Zhejiang and in China. And the delivery of these information for use by governments, organizations and stakeholders towards increasing sustainability and wellbeing.

Developing and sustaining the data ecosystem for sustainable development that exploits new data sources, analytics with associated enabling and integrative technologies, processes and tools will be instrumental in delivering reliable, timely and quality information for evidence-based policies, decisions and programmes nationally and sub-nationally, the 2030 Agenda for Sustainable Development, all for the wellbeing of people, planet, peace and prosperity.
