UNECE Activities in Support of the 2030 Agenda for Sustainable Development

Steven Vale
UNECE

steven.vale@un.org

Priority Topics for EECCA Countries

- ❖ Statistics for SDGs
- ❖ Population and housing censuses
- ❖ Geospatial information management
- ❖ Modernizing official statistics

**Agreed by the countries, and the
Conference of European Statisticians,
June 2019**

Roadmap on Statistics for SDGs

- ❖ Published by UNECE Steering Group on SDG Statistics

English:

<http://www.unece.org/fileadmin/DAM/stats/publications/2017/ECECESSTAT20172.pdf>

Russian

http://www.unece.org/fileadmin/DAM/stats/publications/2017/ECECESSTAT20172_R.pdf

Roadmap on Statistics for SDGs

- ❖ “The Second Edition should focus on practical advice to reduce the burden and simplify the work on statistics for SDGs” - CES Report June 2019
- ❖ New Regional Platform on Statistics for SDGs
 - Knowledge hub
 - Dashboard
 - Database

Workshop on SDG Statistics

- ❖ April 2019, Geneva
- ❖ Session on Geospatial data and methods for statistics for SDGs
 - It would be useful to have a platform for sharing experience in combining statistical and geographic data
 - Workshop participants strongly emphasised the need for further capacity development on geospatial tools and data both for technical and IT specialists

“The participating countries requested capacity development in using geospatial data and tools, and producing disaggregated data to ensure that no-one is left behind”

Forthcoming Activities

- ❖ Expert Group Meeting on Statistics for SDGs
 - 21-24 April, Budapest
 - Geospatial information for SDGs
- ❖ Conference of European Statisticians
 - 22-25 June, Geneva
 - Joint session with UN-GGIM: Europe including topic on SDGs

Welcome to the Statistics for SDGs Public Wiki!

This Wiki is maintained by the Conference of European Statisticians' Steering Group on Statistics for SDGs. It provides links to materials that become available during the Steering Group's work and that can be useful for countries and organization in the work related to statistics for SDGs. For questions or additional information, please contact stela.derivolcov@un.org.

Organization of the CES Steering Group on SDGs

The 2015 plenary session of the Conference of European Statisticians (CES) decided to launch work on a Road Map for the development of official statistics for monitoring SDGs. To prepare the Road Map and monitor its implementation, the CES Bureau set up a Steering Group on Statistics for SDGs in October 2015.

The Road Map supports the implementation of the Declaration on the role of national statistical offices in measuring and monitoring SDGs, adopted by the CES in June 2015.

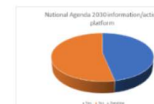

The Steering Group

The Steering Group is currently co-chaired by Poland and Sweden. UNECE acts as a secretariat of the Steering Group. The terms of reference, membership, and work programs can be found on this site.

Task Groups

Principal Products

- **NEW!** RM 2nd edition - fir to stela.derivolcov@un.org
- **NEW!** Summary of progress for SDGs

- Matrix on Capacity Development
- Second Pilot Study on Data Flows
- **NEW!** CES Road Map on Statistics for SDGs
- Self-assessment template I
- Generic Road Map PPT for CES Road Map
- Brief Narrative on CES Road Map
- First Pilot Study on Data Flows
- National Reporting Platform
