Haedong Yonggung Temple

Haedong Yonggung Temple is situated on the coast of the north-eastern portion of Busan. This superb attraction offers visitors the rare find of a temple along the shore line; most temples in Korea are located in the mountains. Haedong Yonggung Temple was first built in 1376 by the great Buddhist teacher known as Naong during the Goryeo Dynasty. Haesu Gwaneum Daebul (Seawater Great Goddess Buddha), Daeungjeon Main Sanctuary, Yongwangdang Shrine, Gulbeop Buddhist Sanctum (enclosed in a cave), and a three-story pagoda with four lions can all be seen looking out over the ocean.

Gamcheon Culture Village

Terraced community houses are lined up along the foot of a mountain and all the alleyways are interconnected with each other. The scenes that this arrangement produces are a distinctive feature of this village. The whole village is a piece of art and a tourist attraction thanks to the formative artwork built everywhere around the narrow paths by resident artists.

5. Dinner

Date: 03. 07(Thu), 19:00p.m.

Place: Lascos Bansang(Korean cuisine)

The background features several overlapping, wavy bands of color. At the top, there are dark blue and medium blue bands. Below these, there are lighter blue and grey bands. The bands curve downwards from left to right, creating a sense of movement and depth. The overall aesthetic is modern and professional.
