Global Survey on the Use and Implementation of the UN-IGIF

Report
Capacity Development Working Group

Summary

A Survey Purpose

B Survey Results

C Main Conclusions

D Lessons Learned

Survey Purpose

Provides insights into:

Assessing Awareness

Understanding Institutional Structure

Evaluating Use and Integration

Gathering Feedback

Survey Results

A **total of 143 responses were received**, representing **114 out of 193 UN-GGIM Member States**.

➤ **Key Finding:** Respondents demonstrate a substantial level of awareness and adoption of the UN-IGIF.

Pie chart:
- 66 (57,9%) — Implementing
- 27 (23,7%) — Considering
- 21 (18,4%) — Not implementing or considering

Results analysis compare the Member States currently using/implementing the UN-IGIF (**Group of 66**), and the Member States that are considering using/implementing it soon (**Group of 27**).

3

➤ **Key Finding:** While there is strong reliance on government funding, concerns remain about the adequacy of resources for ongoing implementation.

UN·IGIF
INTEGRATED GEOSPATIAL
INFORMATION FRAMEWORK

Enabling a better future with location data

Main Conclusions

➤ **The implementation of UN-IGIF represents a pivotal step for Member States**

➤ **Generally favorable perception among Member States**

➤ **Contrasts between Member States in stages of implementation**

➤ **Concerns about substantial reliance on government funding**

Lessons Learned

- ➤ **Strengthening Action Plans**

- ➤ **Identifying Best Practices**

- ➤ **Collective Engagement**

- ➤ **Regular Assessment**

- ➤ **Methodological Enhancements**

- ➤ **Survey as a Tool for Understanding the Extent of UN-IGIF**
