

Expert Consultation and Meeting on Enhancing Geospatial Information Management Arrangements and Accelerating Implementation of the Sustainable Development Goals, and the Sub-regional Workshop on the United Nations Integrated Geospatial Information Framework (UN-IGIF) for Central Asia, South Asia, and neighboring countries

Implementing geospatial strategies: challenges and opportunities

Session III-6: Financial resources

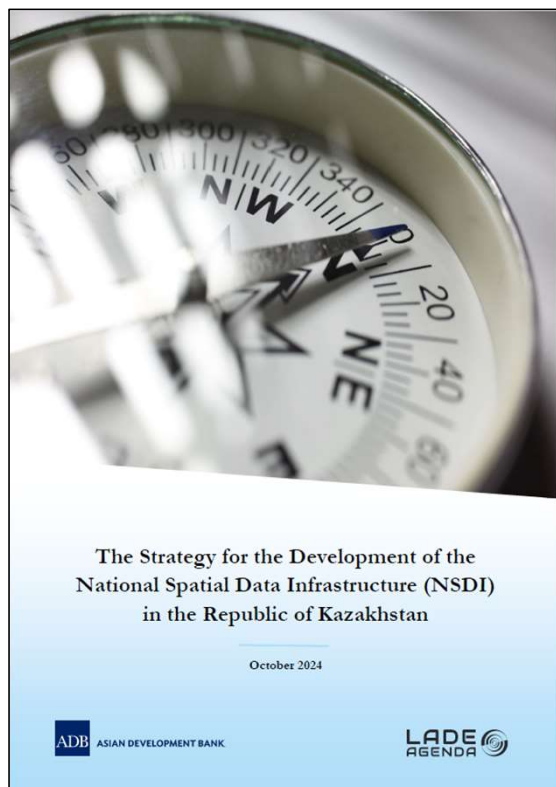

**DIGITAL
& SPACE
MINISTRY**

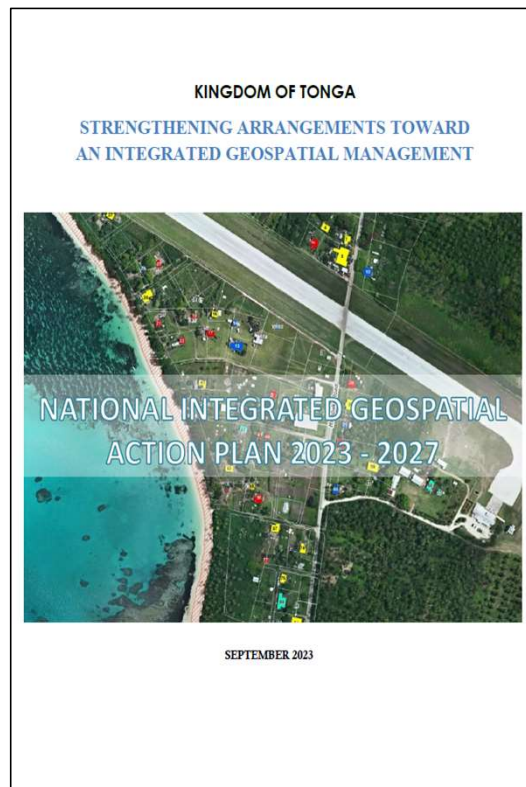

Enhancing Geospatial Information Management arrangements Accelerating the Implementation of the SDGs

Sub-regional Workshop on UN-IGIF for the Central Asia, South Asia and Neighboring Countries

Budget included in some government-led policy documents

USD 92,620,000 for five years

USD 8,195,500 for five years

USD 5,365,000 for five years

Enhancing Geospatial Information Management arrangements Accelerating the Implementation of the SDGs

Sub-regional Workshop on UN-IGIF for the Central Asia, South Asia and Neighboring Countries

A few questions to start the discussion

1. What funding models have been successful in your countries, and which have faced significant challenges?
2. What core components of your geospatial data strategy/CAP do you see as most urgent to fund and which could be funded nationally?
3. What opportunities exist for your country to leverage public-private partnerships, cost-sharing arrangements, or donor funding to support implementation?
4. What mechanisms could ensure stable, long-term financing for geospatial data beyond initial project or donor cycles?
5. How could international and regional cooperation be leveraged to secure funding and reduce individual member state burdens?
