

UNITED NATIONS  
COMMITTEE OF EXPERTS  
ON GLOBAL GEOSPATIAL  
INFORMATION MANAGEMENT

Strategic Framework 2025-2030

**Geospatial ambition and focus**

**Global and national drivers & priorities**

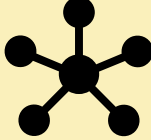

**Principles and benefits**

**Deliverables and activities**

**Geospatial ambition and focus**

**Global and national drivers & priorities**

<b>Ambition and focus</b>	<b>Vision</b>	<b>A WORLD WHERE GEOSPATIAL INFORMATION SOLVES LOCAL TO GLOBAL CHALLENGES</b>				
	<b>Mission</b>	Ensure geospatial leadership, resources and capabilities are coordinated, integrated, sustainable, accessible, and useable by Member States and society to effectively address national priorities, and ensure sustainable development, beyond 2030, leaving no one behind.				
	<b>Strategic goals &amp; objectives</b>	<p>Leading geospatial information</p> 	<p>Fostering partnership and collaboration</p> 	<p>Enhancing geospatial access, bridging digital divide</p> 	<p>Accelerating data use and integration</p> 	<p>Implementing UN mandates and agendas</p> 

**Global and national drivers & priorities**

<b>Ambition and focus</b>	<b>Vision</b>	<b>A WORLD WHERE GEOSPATIAL INFORMATION SOLVES LOCAL TO GLOBAL CHALLENGES</b>					
	<b>Mission</b>	Ensure geospatial leadership, resources and capabilities are coordinated, integrated, sustainable, accessible, and useable by Member States and society to effectively address national priorities, and ensure sustainable development, beyond 2030, leaving no one behind.					
	<b>Strategic goals &amp; objectives</b>	Leading geospatial information 	Fostering partnership and collaboration 	Enhancing geospatial access, bridging digital divide 	Accelerating data use and integration 	Implementing UN mandates and agendas 	Strengthening UN-GGIM architecture 

<b>Drivers &amp; priorities</b>	<b>Global policy agenda</b>	<b>TRANSFORMING OUR WORLD: THE 2030 AGENDA FOR SUSTAINABLE DEVELOPMENT</b>															
		<b>Sendai Framework for Disaster Risk Reduction</b>	<b>Paris Agreement on Climate Change</b>	<b>Sevilla Commitment on Financing for Development</b>	<b>New Urban Agenda</b>	<b>Our Ocean, Our Future: Call for Action</b>	<b>ABAS: A Renewed Declaration for Resilient Prosperity for SIDS</b>	<b>Pact for the Future</b>									
	<b>Global to National</b>	Sustainable development	Economic growth	Social wellbeing	Environmental protection	Transboundary collaboration	Resilience	Energy	Prosperity	Employment	Governance	Security	Education	Health	Climate	Land	Water
	<b>Geospatial priorities</b>	Demography	Land administration	Geodesy	Data	Earth observation	Marine information	Resilience & risk	Guidance	Policies	Governance	Capacity	Communication	Digital ecosystems	Integration	Knowledge	Technology

<b>Principles &amp; benefits</b>	<b>Operating principles</b>	<b>Global Thought Leadership</b>	<b>Strategic engagement &amp; communication across sectors</b>	<b>Digital transformation &amp; safeguarding</b>	<b>Guidance &amp; good governance</b>	<b>Data-driven decision-making</b>	<b>Diversity, Equity &amp; Inclusion</b>	<b>Accessibility, Interoperability &amp; Transparency</b>	<b>Collaborative multi-stakeholder partnerships</b>	<b>Capacity development &amp; knowledge sharing</b>
	<b>Direct national benefits &amp; efficiencies</b>	<ul style="list-style-type: none"> <li>• <b>Societal value:</b> Leadership to enhance and sustain value of geospatial knowledge for social, economic and environmental benefits</li> <li>• <b>Bridging the geospatial digital divide:</b> Empower digital transformation, reducing inequalities in geospatial access and use</li> <li>• <b>Authoritative and reliable data:</b> High-quality, managed and current geospatial data available at scale for decision-making</li> <li>• <b>Enhanced return on investment:</b> Coordinated use and reuse of data and technologies for increased return on investments</li> <li>• <b>Stronger evidence-based policies:</b> Reliable integrated data and systems for science- and data-driven policy, and decisions</li> <li>• <b>Efficient and accountable governments:</b> Open, responsive, coordinated and enhanced capacity in governments and institutions</li> <li>• <b>Empowered workforce and innovation:</b> Strengthened skills, diversity, and innovation in human capital, jobs and entrepreneurship</li> <li>• <b>Improved stakeholder engagement:</b> Greater communication and awareness foster understanding and organizational value</li> <li>• <b>Integrated knowledge sharing:</b> Strategic data integration and knowledge exchange support government and resilient societies</li> <li>• <b>Strengthened regional and cross-border cooperation:</b> Enhanced collaboration for shared goals and sustainable development</li> </ul>								

# Deliverables and activities

Principles & benefits	Operating principles	Global Thought Leadership	Strategic engagement & communication across sectors	Digital transformation & safeguarding	Guidance & good governance	Data-driven decision-making	Diversity, Equity & Inclusion	Accessibility, Interoperability & Transparency	Coaborative multi-stakeholder partnerships	Capacity development & knowledge sharing
	Direct national benefits & efficiencies	<ul style="list-style-type: none"> <li>• <b>Societal value:</b> Leadership to enhance and sustain value of geospatial knowledge for social, economic and environmental benefits</li> <li>• <b>Bridging the geospatial digital divide:</b> Empower digital transformation, reducing inequalities in geospatial access and use</li> <li>• <b>Authoritative and reliable data:</b> High-quality, managed and current geospatial data available at scale for decision-making</li> <li>• <b>Enhanced return on investment:</b> Coordinated use and reuse of data and technologies for increased return on investments</li> <li>• <b>Stronger evidence-based policies:</b> Reliable integrated data and systems for science- and data-driven policy, and decisions</li> <li>• <b>Efficient and accountable governments:</b> Open, responsive, coordinated and enhanced capacity in governments and institutions</li> <li>• <b>Empowered workforce and innovation:</b> Strengthened skills, diversity, and innovation in human capital, jobs and entrepreneurship</li> <li>• <b>Improved stakeholder engagement:</b> Greater communication and awareness foster understanding and organizational value</li> <li>• <b>Integrated knowledge sharing:</b> Strategic data integration and knowledge exchange support government and resilient societies</li> <li>• <b>Strengthened regional and cross-border cooperation:</b> Enhanced collaboration for shared goals and sustainable development</li> </ul>								

Deliverables & activities	Working activities & outputs	<ul style="list-style-type: none"> <li>• Leverage the <b>leadership</b> and commitment in geospatial information of Member States, regional and thematic networks</li> <li>• Strengthen the <b>role of geospatial information towards achieving the Sustainable Development Goals</b>, and other global agendas</li> <li>• Enhance the coordination, <b>coherence, financing and capacities</b> of global-to-local geospatial information management arrangements</li> <li>• Improve geospatial <b>governance and guidance</b> aligning national and global frameworks and <b>good practices</b></li> <li>• Guide the <b>transparent, diversity, equitable and inclusive</b> use of geospatial information management for society</li> <li>• Oversee the <b>strategic orientations</b> and guide the activities of the global geospatial centres of excellence</li> <li>• Foster direction and readiness to <b>emerging technologies</b> towards determining the future geospatial information ecosystem</li> <li>• Provide <b>strategic leadership</b> for the adoption and implementation of <b>integrated geospatial information management &amp; frameworks</b></li> <li>• Lead the <b>coordination and collaboration</b> to improve and strengthen the global geodetic reference frame and geodesy supply chain</li> <li>• Determine and provide geospatial information <b>methods, tools and services</b> for climate, environment and resilience</li> <li>• <b>Integrate</b> geospatial and statistical information through implementation and operationalization of related frameworks</li> <li>• Advance the role of <b>integrated</b> geospatial information for effective land administration and management</li> <li>• Guide and encourage the <b>availability, accessibility and integration</b> of marine geospatial information</li> <li>• Address policy and legal issues in geospatial information management including related to <b>emerging technological advancements</b></li> <li>• Demonstrate the benefits of implementing and adopting geospatial <b>standards</b> for the global geospatial community</li> <li>• Strengthen <b>synergies and partnerships</b> with other intergovernmental processes, international entities, organizations related to science, <b>technology, innovation</b>, geographical names, statistics, <b>data</b> to maximize the <b>impact</b> of geospatial information in all its forms</li> </ul>
---------------------------	------------------------------	--

**Geospatial ambition and focus**

**Global and national drivers & priorities**

**Principles and benefits**

**Deliverables & activities**

**Working activities & outputs**

- Strengthen the **role of geospatial information** towards achieving the **Sustainable Development Goals**, and other global agendas
- Enhance the coordination, **coherence, financing and capacities** of global-to-local geospatial information management arrangements
- Improve geospatial **governance and guidance** aligning national and global frameworks and **good practices**
- Provide **strategic leadership** for the adoption and **implementation of integrated geospatial information management and frameworks**
