Committee of Experts on Global Geospatial Information Management

Tenth session

New York, 5–7 August 2020

Item 4 of the provisional agenda*

Contribution of regional committees and thematic groups to the global geospatial information agenda

Contribution of regional committees and thematic groups to the global geospatial information agenda

Note by the Secretariat

The Secretariat has the honour to bring to the attention of the Committee of Experts on Global Geospatial Information Management the report containing the contributions of regional committees and thematic groups to the global geospatial information agenda, which will be available in the language of submission only from the relevant web page of the Committee of Experts (<http://ggim.un.org/meetings/ggim-committee/10th-session/>). The Committee is invited to take note of the report and to express its views on the operation and achievements of the regional committees and thematic groups.

Summary of the report

The report provides information on the contributions and achievements of the following nine regional committees and thematic groups: Regional Committee of United Nations Global Geospatial Information Management for Asia and the Pacific; Regional Committee of United Nations Global Geospatial Information Management for the Americas; Regional Committee of United Nations Global Geospatial Information Management for Africa; Regional Committee of United Nations Global Geospatial Information Management for Europe; Regional Committee of United Nations Global Geospatial Information Management for the Arab States; United Nations Global Geospatial Information Management Geospatial Societies; United Nations Global Geospatial Information Management Academic Network; United Nations Global Geospatial Information Management Private Sector Network; and the United Nations Geospatial Network.

The report contains information on the activities and achievements of the regional committees and thematic groups since the ninth session of the Committee of Experts, held in New York from 7 to 9 August 2019, including the regional meetings

* E/C.20/2020/20.

and workshops held during the intersessional period. The report also provides an overview of their work in the following areas: (a) sustainable development; (b) Integrated Geospatial Information Framework; (c) land administration and management; (d) disaster risk reduction; (e) integration of statistical and geospatial information; (f) legal and policy frameworks; (g) regional and international collaboration and capacity development; (h) global geodetic reference frame; (i) marine geospatial information; (j) geospatial standard-setting; (k) priority issues and challenges; (l) future plans and events; and (m) efforts towards a more structured and sustainable coordination approach for geospatial information management activities within the United Nations system.
