

# Committee of Experts on Global Geospatial Information Management

## Tenth session

New York, 26- 27 August 2020 and 4 September 2020

Item 3 of the agenda

### Strengthening of geospatial information management (for discussion and decision)

<i>Statement provided by:</i> China	
<i>Statement:</i> China welcomes the report by the Secretariat on strengthening geospatial information management, and appreciates the activities and efforts made since the 9th session of UNGGIM.  China takes note of the third edition of the report on future trends in geospatial information management, which helps Member States to better understand the trends of geospatial information and technology, and how geospatial information and technology underpin national and global sustainable development.  China, jointly with the UNGGIM Secretariat, is actively advancing the establishment of a United Nations global geospatial knowledge and innovation centre in Deqing, China. It will support the work of strengthening the geospatial information management capacity and capability development of Member States. Besides, we will continue implementing the China-UNGGIM trust fund project to help enhance developing countries' geospatial information management.
