

Committee of Experts on Global Geospatial Information Management

Tenth session

New York, 26- 27 August 2020 and 4 September 2020

Item 4 of the agenda

Contribution of regional committees and thematic groups to the global geospatial information agenda (for information)

<i>Statement provided by:</i> Colombia	
<i>Statement:</i> Colombia appreciates the work carried out by the regional committees and their thematic groups, to strengthen the management of geospatial information in the member states. We recognize the efforts of UNGGIM Americas Regional Committee, such as the updating of the WEB page, which includes different initiatives such as the MEGA, an interactive board of the SDGs and the project for statistical integration. Colombia will continue to lead the work to support the Statistical and Geospatial Framework of the Americas (MEGA) initiative, to improve the availability and quality of information, aligned with the GSFG to promote the implementation of the 2030 Agenda. We will be promoting the implementation of a second version of the MEGA, to incorporate new statistical variables and information related to the SDGs.
