|---|-----------|
| <i>Statement provided by:</i> EuroGeographics | |
| <i>Statement:</i> | |
| <ul style="list-style-type: none">• EuroGeographics notes the extensive report and comprehensive supporting documentation from the subcommittee on Geodesy, and welcome the extension of consultation and communication to other groups active in the field of geodesy, noting in particular the importance of continued and further engagement beyond our traditional scientific and operational areas - beyond the community of interest to decision makers.• We welcome in particular the proposal to establish the global geodetic centre of excellence in Europe. | |
