

Committee of Experts on Global Geospatial Information Management

Tenth session

New York, 26- 27 August 2020 and 4 September 2020

Item 6 of the agenda

Global geodetic reference frame (for discussion and decision)

<i>Statement provided by:</i> International Federation of Surveyors - FIG	
<i>Statement:</i> The International Federation of Surveyors (FIG) notes the reports and papers outlining the development of a Global Geodetic Centre of Excellence (GGCE). FIG is supporting the proposal from Germany to host the GGCE. Germany is offering an excellent infrastructure and the German Geodesy has gained a global reputation especially in this field. FIG notes in the report that a strong collaboration between member states, organisations and other entities is important and we fully support this. FIG will be pleased to contribute to the implementation and sustainability of the GGCE and the cooperation needed between all actors.
