

# Committee of Experts on Global Geospatial Information Management

## Eleventh session

New York, 23, 24 and 27 August 2021

Item 9 of the agenda

### Application of geospatial information related to land administration and management (for discussion and decision)

<i>Statement provided by:</i> Africa Regional Committee of the United Nations Committee of Experts on Global Geospatial Information (UN-GGIM: Africa)	
<i>Statement:</i>	
<ol style="list-style-type: none"><li>1. UN-GGIM: Africa take notes of the report and the work of the Expert Group on Land Administration and Management and further endorses its updated work plan for the period 2020 – 2022.</li><li>2. One of the challenges for the geospatial community in Africa is the need to enhance our ability to influence decision makers to adopt information support system for land policy design and implementation. The Africa region stands willing and interested to contribute and support any activity (including hosting regional meetings) that will raise awareness and foster the implementation of the Framework for Effective Land Administration at national and regional level.</li></ol>
