

**Committee of Experts on Global Geospatial
Information Management**

Eleventh session

New York, 23, 24 and 27 August 2021

Item 5 of the agenda

**Integrated Geospatial Information Framework
(for discussion and decision)**

Statement provided by:

South Africa

Statement:

1. South Africa note the report on the Integrated Geospatial Information Framework and support the activities of the High-Level Group on IGIF. South Africa is currently implementing an integrated national geospatial information management programme through the development of Country-level Action Plan that is aligned to the Medium-Term Strategic Framework, National Development Plan and Spatial Integration.
2. South Africa is on the path to institutionalizing the IGIF. With the intention to ensure availability of and sustainability of resources, we are developing Business Service Delivery Model to outline the resource requirements for the full implementation of the IGIF.

Orally delivered at the 1st Meeting on 23 August 2021
