

Committee of Experts on Global Geospatial Information Management

Eleventh session

New York, 23, 24 and 27 August 2021

Item 5 of the agenda

Integrated Geospatial Information Framework (for discussion and decision)

<i>Statement provided by:</i> Argentina Republic	
<i>Statement:</i> <p>Argentina Republic welcomed the report of the High-Level Group of Integrated Geospatial Information Framework, prepared with the assistance of the Secretariat. Argentina supports the importance and urgency to resource the refinement and finalization of the IGIF's Implementation Guide, updating its Overarching Strategic Framework, completing the resource materials to assess, design and develop Country-level Action Plans, and to digitally publish the IGIF suite of products.</p> <p>Also considers as priorities improve communication, capacity development and sustainable founding. Especially develop and implement a communication strategy to create awareness on the importance and relevance of the IGIF for policy- and decision-makers, is a key strategic goal and a priority.</p> <p>Argentina considers that the Integrated Geospatial Information Framework Guide is a key document to support, strengthen and develop capacities related to the use and management of geospatial information. In this regard, Argentina is working and promoting the knowledge and use of it to raise awareness about the fundamental and integrating role of geospatial information and to strengthen the development of capacities in relation to its management.</p>
