<i>Statement provided by:</i> Argentina Republic	
<i>Statement:</i> Argentina takes note and welcomes the report of the Expert Group on the Integration of Statistical and Geospatial Information describing the Expert Group's work and progress during the intersessional period. We believe that Covid-19 has highlighted the importance of geospatial information and the need for Member State authorities to emphasize the value of integrating statistics and geospatial information; for take advantage of its usefulness in government management. Argentina promotes the implementation of the Global Statistical Geospatial Framework in the Americas region, based on our participation in the Marco Estadístico y Geoespacial para las Américas (MEGA).
