

Committee of Experts on Global Geospatial Information Management

Eleventh session

New York, 23, 24 and 27 August 2021

Item 3 of the agenda

Strengthening of geospatial information management (for discussion and decision)

<i>Statement provided by:</i> Argentina Republic	
<i>Statement:</i> Argentina takes note and welcomes the efforts of the Expanded Bureau and the Secretariat of UN-GGIM regarding the preparations for the report and resolution to ECOSOC. We support the establishment of an ad-hoc task team to prepare and consult on the draft report to ECOSOC, advising the importance of providing time for the consideration of the Committee of experts, before submitting the report to ECOSOC in February 2022. We insist on the need to allocate adequate resources to developing countries in order to guarantee a strengthening of geospatial information management balanced at a global level.
