

**Committee of Experts on Global Geospatial  
Information Management**

**Eleventh session**

New York, 23, 24 and 27 August 2021

Item 9 of the agenda

**Application of geospatial information related to land administration and management  
(for discussion and decision)**

*Statement provided by:*

GERMANY

*Statement:*

GERMANY appreciates the progress achieved by the expert group during the reporting period and also the focus for the workplan 2020–2022 as agreed by the expert group after the tenth session of the UN-GGIM.

GERMANY acknowledges that the five key elements for implementing the FELA at country level as identified by the expert group provide the clear frame for specific and concrete action to be planned and taken in line with the nine IGIF pathways during the next intersessional period to come.

GERMANY will examine and consider the possibility of a future membership of Germany in the LAM expert group in due course.

Thank you.

Working Committee of the Surveying Authorities  
of the Laender of the Federal Republic of Germany (AdV)
