

Committee of Experts on Global Geospatial Information Management

Eleventh session

New York, 23, 24 and 27 August 2021

Item 10 of the agenda

Geospatial information and services for disasters (for discussion and decision)

<i>Statement provided by:</i> Sweden	
<i>Statement:</i> Sweden takes note of the report and the comprehensive work made by the Working Group since the tenth session of the United Nations Committee of Experts on Global Geospatial Information Management, with the strong leadership from Japan and Jamaica. Sweden endorse the workplan prepared by the Working Group for the period 2020-2023. Access to reliable and accurate geographical information is crucial to support decision-making and activities in an early and coordinated way in all sectors and phases of disaster risk management. The four prioritized goals will support to fulfil the objectives and the vision in the future work. Sweden will continue to support the Working Group and encourage other Member states to become members and actively contribute in this important area.
