

Committee of Experts on Global Geospatial Information Management

Eleventh session

New York, 23, 24 and 27 August 2021

Item 13 of the agenda

Implementation and adoption of standards for the global geospatial information community (for discussion and decision)

Statement provided by:

European Association of Remote Sensing Companies (EARSC – www.earsc.org)

Statement:

- [European Association of Remote Sensing Companies](http://www.earsc.org) – EARSC welcomes the report prepared by the committee of expert's on the role of standards in advancing data access and sharing to assist the 2030 agenda. The world is seeing an expansion of EO products that need to be comparable and urge Member States to use the standards guide and implement standards within their national frameworks.
- EARSC offers the dissemination of the Third Edition of the Standards Guide to support the request for contributions documenting geospatial standards implementations and user stories to feature the Standards Guide and its annexes.
