

Committee of Experts on Global Geospatial Information Management

Eleventh session

New York, 23, 24 and 27 August 2021

Item 13 of the agenda

**Implementation and adoption of standards for the global geospatial information community
(for discussion and decision)**

<i>Statement provided by:</i> Canada	
<i>Statement:</i> Canada thanks the standards development organizations and contributors for their extensive work, and endorses the Guide to the Role of Standards in Geospatial Information Management (Edition 3) as a living document that will facilitate implementation of the Integrated Geospatial Information Framework; Canada continues to be actively engaged in global geospatial standards implementation and development, and commends the UN-GGIM for advancing this work; Canada encourages all UN-GGIM members to actively engage in the standards development organizations to help advance standards activities and achieve shared goals, including attaining the Sustainable Development Goals and addressing climate change.
