

Committee of Experts on Global Geospatial Information Management

Eleventh session

New York, 23, 24 and 27 August 2021

Item 5 of the agenda

Integrated Geospatial Information Framework (for discussion and decision)

<i>Statement provided by:</i> MEXICO	
<i>Statement:</i>	
<ul style="list-style-type: none">• Mexico endorses the adoption and refinement of the Implementation Guide of the Integrated Geospatial Information Framework (IGIF) which is very useful for the management of the geospatial information across member states.• Mexico recognizes the work undertaken prior to and during the pandemic has shown that the IGIF provides us with the bases that allow the integration of information in the face of emerging needs for integrated statistical and geospatial information for decision-making.• Mexico considers that the role of the High-Level group is very important in guiding and leading to advance in the adoption of the IGIF, according to the needs and the phase implemented in each country.
