(for discussion and decision)**

Statement provided by:

UN-GGIM: Arab States

Statement:

UNGGIM- Arab States welcomes the report from the Expert Group on the Integration of Statistical and Geospatial Information, and we wish to thank all those who have contributed to the development of this report.

Among the UNGGIM- Arab States Committee, the working group for the Integration of Geospatial & Statistical Information, held a number of workshops aimed at exchanging knowledge, experiences and raising the level of awareness among the member states. It also searched for ways to overcome any difficulties, with the ultimate goal of following up the progress of work and discussing important related topics to support the integration of geospatial, statistical and other related information.

The UNGGIM-Arab States expresses its gratitude and thanks to Kuwait for its contribution in translating the Statistical Geospatial Framework (GSGF) into Arabic, and also to the Chair of Integration of Geospatial and Statistical Information Working Group (Egypt), for its contribution to the working group agenda.

The UNGGIM-Arab States encourages member states to participate and contribute to the work of this expert group, and to support national and regional implementation of this framework.
