

# Committee of Experts on Global Geospatial Information Management

## Eleventh session

New York, 23, 24 and 27 August 2021

Item 9 of the agenda

### Application of geospatial information related to land administration and management (for discussion and decision)

<i>Statement provided by:</i> MEXICO	
<i>Statement:</i>	
<ul style="list-style-type: none"><li>• Mexico recognizes the efforts for the construction of the Framework for an Effective Land Administration and supports that it be constantly reviewed and updated in accordance with current changes and conditions.</li><li>• Mexico supports the importance of the respect of the land rights and encourages the adherence to regulations, as well as the establishment of an evaluation mechanism that considers the nine paths of the FELA; because the basis for an effective land administration is to have integrated geospatial information, adequate land management policies that regulate the tenure, land value, use and the environmental, economic, and sustainable development of the land.</li><li>• Mexico recognizes the efforts to translate the FELA into the Spanish, Chinese and Arabic languages, as well as the presentation of this Framework in the 9th plenary meeting of the Regional Committee of UN GGIM of Asia-Pacific and in the 8th session of the Regional Committee of UN GGIM of the Arab states, among others; and the preparation of the 2020-2022 work plan that gives continuity to what has been done so far.</li></ul>
