United Nations Committee of Experts on
Global Geospatial Information Management

Dear members and colleagues,

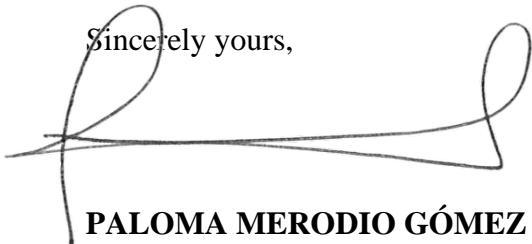

We are pleased to inform you that the Government of Mexico, through Instituto Nacional de Estadística y Geografía (INEGI), offers to host the Seventh High-level Forum on United Nations Global Geospatial Information Management in October 2024, in Mexico City.

The Seventh High-level Forum in Mexico City offers a unique opportunity for the Committee of Experts, as an interconnected global community, to share and learn from each other, to consider new ideas, strategies, approaches, technologies, and innovation to support national, regional, and global agendas and respective national priorities, programs, and projects. The Seventh High-level Forum will bring together participants from governments and stakeholders at the highest level, and provides the convening, participatory, and inclusive environment to enhance the knowledge, understanding, communication, and application of geospatial information to accelerate the implementation of the United Nations Integrated Geospatial Information Framework as the overarching strategy at the country-level towards the achievement of the Sustainable Development Goals and addressing climate-related challenges.

We trust the Committee of Experts at its Thirteenth session, will honor Mexico and INEGI with the privilege to host the Seventh High-level Forum on United Nations Global Geospatial Information Management with the theme “Accelerating Implementation; Achieving Resilience”.

Looking forward to welcoming and hosting you in Mexico City in October 2024.

Sincerely yours,

PALOMA MERODIO GÓMEZ
Vice president INEGI
Mexico
