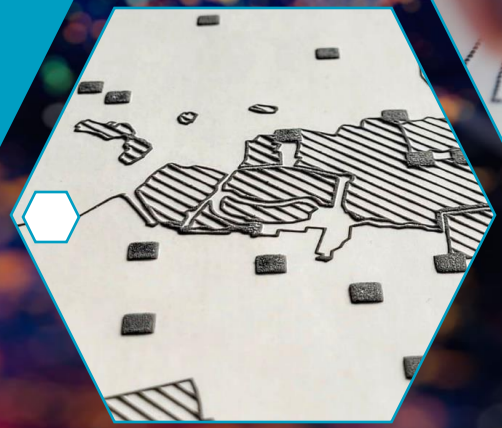
What does it mean to be an inclusive organization?

Involve communities

Cartography

Organization (ESG)



Open geo-data

International (SDG’s)

Becoming an inclusive organization

- **Adjust your work to maximalize impact** - *Create impact by enable all to use geo-data, share knowledge and expand cooperation*
- **Involving the communities we serve** - *User Council, Strategic Reconnaissance, Customer Satisfaction Research*
- **ESG strategy (Environmental, Social en Governance)** - Implementing strategies by setting clear goals: *Reducing environmental impact, hiring policy*
- **Sustainable Development Goals (SDG) accountability** - *Responsibility to report to the communities we serve*
