2. Presentation and evaluation of the work of Task Groups 1, 2 and 3:
 - a. Antonio Arozarena, TG1 Coordinator, IGN, Spain
 - b. Carlos Guerrero, TG2 Coordinator, INEGI, Mexico
 - c. Ng Siau Yong, TG3 Coordinator, Singapore Land Authority
3. Special Presentations
 - a. Community mapping and quality assurance for urban disaster mapping – Sanghoon Lee, Deputy Director, NGII, Republic of Korea
 - b. Funding Systems used in Mexico to support institutional arrangements – Luis Gerardo Esparza Ríos, Director General, INEGI, Mexico
 - c. Best funding systems to support and enhance institutional arrangements – Álvaro Monett Hernández, Executive Secretary, SNIT, Chile
4. Discussion and debate
5. Planning for next year
6. Final conclusions

“This is an open workshop and all Session Attendees are invited”

Background

The establishment of this Working Group comes from a request by the Committee of Experts in July 2013 to identify best practices, sets of institutional models and legal frameworks for national geospatial information management and interoperability between different systems and institutions responsible for its management, while ensuring uniformity, standardization, access and exchange.

Expected Outcomes

The institutional models should provide Governments with options on how best to create national geospatial entities

“This is an open workshop and all Session Attendees are invited”
