Proactive steps by geospatial professionals to address legal and policy considerations that impact Geospatial Information Management

Rosamond C. Bing – Chief Executive Officer
Ministry of Lands and Natural Resources (Government of Tonga)

SETTING THE FOUNDATION

1. PACIFIC GEOSPATIAL AND SURVEYING COUNCIL STRATEGY 2017-2027

2. TONGA DIGITAL GOVERNMENT STRATEGIC PLAN 2018-2023
PACIFIC GEOSPATIAL AND SURVEYING COUNCIL STRATEGY 2017-2027

Develop roadmaps as a way forward that will lead to national policies towards realizing an enabling environment supported by appropriate and sound legal and policy frameworks.

PACIFIC GEOSPATIAL AND SURVEYING COUNCIL STRATEGY 2017-2027

The PGSC enables regional leadership, guidance and support for members to engage stakeholders and the community on geospatial and surveying activities.

- Increased engagement, communications, information sharing, support and coordination between practitioners within a ‘community of practice.’
- Enhanced visibility of geospatial and surveying activities and contributions at community, national, regional and global levels.
- Improved understanding of and commitment to the role of geospatial information and surveying on the part of government decision makers.
TONGA DIGITAL GOVERNMENT STRATEGIC PLAN
2018-2023

GUIDING PRINCIPLES
- Security and Privacy
- Interoperability
- Portability
- Innovation
- Customer Focus
- Standardization
- Holistic (whole of Government) Approach

DEVELOPING THE ARCHITECTURE

Integrated Geospatial Information Framework 2018
(Pathway 2 – Legal and Policy)

- Legislation
- Implementation and accountability
- Norms, policies and guides
- Data protection and licensing
THANK YOU
